---

## SUMMARY

Motivated MCA fresher seeking to leverage strong programming and analytical skills to contribute effectively to a dynamic technology team. Committed to continuous learning and professional growth in the software development and data analysis fields.

---

## EDUCATION

<b>Master of Computer Applications   Kakatiya university (campus)</b> Sep 2022 - Aug 2024	<b>CGPA : 6.5/10</b>
<b>Bachelor of Science (computer science)  A.V.V Degree College</b> Nov 2018 - Aug 2021	<b>CGPA : 7.2/10</b>
<b>M.P.C   JVS Sri Chaitanya Junior College</b> June 2016 – Mar 2018	<b>CGPA : 6.9/10</b>
<b>SSC   Govt Practicing High School</b> Mar 2016	<b>CGPA : 8.5/10</b>

---

## PROJECTS

### DATA POISONING DETECTION SCHEMES FOR DISTRUBUTED MACHINE LEARNING(FINAL YEAR PROJECT)

- Developed a System to Detect data poisoning attacks in distributed machine learning environments.
- Implemented algorithms to identify and mitigate malicious data inputs.
- Utilized python, Distributed computing frameworks, and machine learning libraries.
- By using Django framework I developed webpage for it.

### PythonWebsite Blocker (mini project)

- Built a python website blocker to restrict access to specific sites.
  - Enabled automated scheduling for site blocking/unblocking
- 

## Certification

- 100 Days of code : a challenging complete python pro Bootcamp - udemy
- 30 days Masterclass on WebDevelopment Fullstack(using Reactjs) -Pantechelearning

---

## SKILLS

- Python
- css
- Reactjs
- html
- javascript
- github
